

MOBIX DATA

**VEHICLE DATA SOLUTIONS
FOR INTELLIGENT, CONNECTED & EFFECTIVE
PUBLIC TRANSPORT MOBILITY**

A DATA PLATFORM FOR THE PUBLIC TRANSPORT OF THE FUTURE

- Real-time access to the status of the rolling stock
- Reduced operational costs and CO₂ emissions
- Improved passenger safety and comfort
- Intelligent management of vehicle depots
- Predictive vehicle maintenance

Vehicle data analysis, the use of sensors **and real-time intelligent processing** of data in the cloud to create new commercial models.

With the information obtained, public transport companies can:

- **OPTIMISE PROCESSES**
- **REDUCE COSTS AND CO₂ EMISSIONS**
- **OFFER HIGH-QUALITY SERVICES**
