

# MOBI X DRIVE

## *THE ECONOMY REINVENTED FOR PUBLIC TRANSPORT.*

Solution adapted to the specific features  
of public transport with

**− COSTS | EMISSIONS**

**+ SAFETY | COMFORT**

Bus drivers can **improve their driving** in two ways:

## CONSUMPTION COMFORT

### 13 WAYS FOR MAKING IMPROVEMENTS

split into 2 categories:  
**geo-tracking**  
**behaviour**

#### LOCAL AUTHORITIES

Budget control  
Environmental protection  
Public service quality

#### OPERATORS

Operational costs  
Green mobility  
Driver performance

#### PASSENGERS

Service approval  
Safety  
Comfort

#### INTUITIVE TO USE

- **DISPLAY** via a screen incorporated into the driver's cab

- **REAL-TIME FEED-BACK** of 2 key parameters:  
consumption + comfort

#### NEW TECHNOLOGIES

- Innovative algorithms with **ARTIFICIAL INTELLIGENCE** (AI)
- **WEB CLOUD** solution

#### FULL STATISTICS

- Comparison of **PERFORMANCE** compared with the average
- **DETAILED ANALYSIS** & objective per journey
